**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 7, 2004 has been entered.

### ***Response to Amendment***

2. The Amendment submitted on May 7, 2004, has been entered. Claims 2 – 9 have been cancelled. Claims 1 and 10 have been amended and claims 11 – 14 have been added. Therefore, the pending claims are 1 and 10 – 14.
3. The amendment is sufficient to overcome the objections to the claims set forth in section 10 of the previous Office Action.
4. The amendments to the claims are sufficient to overcome the 35 USC 103 rejections based on Palumbo (WO 96/10979) and Benson et al. (5,628,096) since neither references discloses using other than a meltblown or elastic layer as the middle layer in the composite, which is now required by the claims.

### ***Drawings***

5. The drawings were received on May 7, 2004. These drawings are acceptable.

### ***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it

Art Unit: 1771

pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 1 and 10 – 14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. Claim 1 and 10 contain the limitation that the middle layer is “not a meltblown or elastic material”. This limitation is considered to be new matter since the disclosure fails to teach explicitly excluding meltblown materials and elastic materials from the middle layer. While it is true that the disclosure teaches that the middle layer can be various types of materials including non-thermoplastic layers such as metal and paper, there is nothing in the disclosure that teaches that a meltblown layer and an elastic layer cannot be used as the middle layer. In fact the disclosure teaches that the middle layer can be an elastic material and that meltblown layers can be used in the composite material. Therefore, the disclosure does not teach the concept of not using a meltblown material or an elastic material as the middle layer. Therefore, claims 1 and 10 are rejected. Claims 11 – 14 are rejected due to their dependency on claims 1 and 10.
